Subject: Re: BSA Code Review Reminder

I was extremely disappointed that my (historical) complaint against Chris Lynch of news talkzb (when he referred to Parking Meter wardens as "SCUM") was not upheld and he was not required to publicly apologize to all Traffic Wardens. Those men and women were (and still are today) performing a, sometimes, very difficult job in their daily work.

As my complaint was not upheld and by your acceptance of an award winning broadcaster denigrating the work of people trying to do a good days work, I believe your standards of acceptance are not that of mine.

However, some people do have good standards:

I was very pleased to hear the spokesman for Fletcher Construction apologize to Irish workmen and women (who have arrived to help with our rebuild) for his comments regarding the (intimated) bad standard of workmanship of Irish workers. At least that spokesman for Fletchers was mature and humble enough to publicly apologize!!
